

Kaledon, The Fallen King

Here lies the king
King of the light
Beloved friend
We'll miss You
Forever in our hearts
You will stay...
Goodbye

You led the troops in the night
Your life has been glorious
Your name will remain forever
As the greatest king of all time

Glory forever oh mighty king
Shining star in a clear sky
All that we can do now is sing
Cry your name all the night in the air

You have fought evil creatures
For salvation of our souls
Day by day

Fight in the night
Fight for the light
Fight for the glory

You have fought evil creatures
For salvation of our souls
Day by day

Glory forever oh mighty king
Shining star in a clear sky
All that we can do now is sing
Cry your name all the night in the air
