

Kali Uchis, Another day in America (ft. Ozuna)

Another day in America
A blessing so they say
Sacrifice don't stop at the border
The nightmare at the border was sold as a dream

Everything changed in America
Except nothing changed in America
Wanna tell me what's America
But who do you think built America?

Money, greed
Money, greed

[Ozuna:]
(zwrotka po hiszpańsku)

Everything changed in America
Except nothing changed in America
Wanna tell me what's America
But who do you think built America?
Everything changed in America
Except nothing changed in America
Wanna tell me what's America
But who do you think built America?

Money, greed
Pison in teh food
Profit off prisons
And the brainwash on thwe schools
If you watch the media
Rthat weil kep you fooled
Eyes locked to the screens
Keep scrolling on your phones
Like
Money, greed
All that we consume
Say: Land of the Free
But the land was always stolen
Mass incarceration anbd the detention centres
Everythig they did yto us never made the news

Everything changed in America
Except nothing changed in America
Wanna tell me what's America
But who do you think built America?
Everything changed in America
Except nothing changed in America
Wanna tell me what's America
But who do you think built America?
