

# Kambrium, Dark Lights

We can not see the moon  
The lights are gone and darkness shines  
Mankind left alone

Clouds are falling from the sky  
At the edge of time  
The ash is burning all we loved  
Just a memory  
Is all that's left behind

Come with me  
Down to abyss  
Down with me  
In Styx's waters

Ref.  
Frozen  
In my heart of stone  
Silence  
Like the eye of a storm  
Darkness  
And the stars won't shine  
Sadness  
On these last days of time

The dark lights glowing bland  
Something is calling our names  
Hope rises again  
Following the secret call  
The light feels so cold  
Freezing the blood in our veins  
Black eyes open up  
And esperance just turns to dust

Come with me  
Down to abyss  
Down with me  
In Styx's waters

Frozen  
In my heart of stone  
Silence  
Like the eye of a storm  
Darkness
