

Kanye West, Fade

When no one ain't around
I feel it's fading
I think I think too much
I feel it's fading
Ain't nobody watching
I feel it's fading
I just fade away

I feel it...
Fade away
I feel it...
I feel it...
Fade away
I think I think too much
I feel it...
Your love is fading!
I feel it...

Roll up, roll up
Hold up, hold up
Pop up, pop up
I feel it
I love to
I wanna
I'm tryna
I feel it
I'ma rock the boat
Work the middle 'til it hurt a little
I feel it
Your love is fading!
I feel it

When no one ain't around
I feel it's fading
I think I think too much
I feel it's fading
Ain't nobody's watching
I feel it's fading
I just fade away
I feel it's fading

You don't even know
I've been so far gone
I feel it
I've been so led on
I've been running around
I feel it
I've been on my shit
Whole world on my dick
I feel it
I just need to know
I can feel it

Deep inside
Deep, deep, I can't stop!
I feel it
