

Kanye West, Talk About Our Love (With Brandy)

Oh...

What'd ya hear this time
Gonna speak your mind
I know somebody's lying
It's always something
How RT told your cousin
Then all ya homies jump in
And now the whole hood's buzzing

He said, she said
Don't let it get in here
Baby, don't say
Something that you will regret
I'm on your team
In such seconds and you'll see
It ain't, it ain't gone stop
They just want what we got

[chorus]

The more they talk about our love
The more they make it obvious
The more they seem so envious
How can they talk about our love
They don't know one thing about us
Is that they just running their mouths
So all we do is tune them out

Oh...

I swear they got some nerve
Spreading what they heard
I can't give them no burn
I can't be concerned
With all that talk
I won't be involved
That's my word

See I'm not the one
They got me confused
They got me messed up
Don't you think I've had enough
When it comes to what we do
All that matters is us two
Don't pay them no mind
We just gonna show and prove

[chorus]

The more they talk about our love
The more they make it obvious
The more they seem so envious
How can they talk about our love
They don't know one thing about us
Is that they just running their mouths
So all we do is tune them out

Oh...Kanye

[Kanye West]

It's a couple of things I can't honor man
How you listen to a girl that still want a man
Tell me the truth
Is that a man or Jwanna man
I'm wondering why she ready to go like Wanda then

When we met you was a V, like Madonna man
Now you went field running plays like Donovan McNabb
Before you get in that cab
I trade in my cash
Just to take it back to last summer man
You don't remember when you was my sweetest
You don't remember I called you Reeses Pieces
Cause it's no wrong way to do you know what
She turned around, giggled and said, 'you so nuts'
But nowadays we acting way to grown up
Like how ya ex-girl get that new number
The rumors was, so numerous
But sticking by me I had to give you two thumbs up
And that's why

[chorus]

The more they talk about our love
The more they make it obvious
The more they seem so envious
How can they talk about our love
They don't know one thing about us
Is that they just running their mouths
So all we do is tune them out

Go On!

[chorus]

The more they talk about our love (tune it out baby)
The more they make it obvious
The more they seem so envious
How can they talk about our love (lets not talk about it baby)
They don't know one thing about us
Is that they just running their mouths
so all we do is tune them out

I don't wanna hear it no more
