

# Kanye West, Wolves (feat Sia & Vic Mensa)

Lost and beat up  
Dancin', down there  
I found you, somewhere out  
Right 'round there, right right there  
/2x

Lost and, found now  
Turn down, I'm lost  
Daddy, found out  
How you turned out, how you turned out  
If mama knew now  
How you turned out  
You too wild /4x

I need you now  
I do, love you  
Found you, found you  
Right now /4x  
If your mama, knew now  
How you turned out  
You too wild /4x  
And I need you now  
Lost and found now

[Vic Mensa:]  
I, I'm not sorry  
Cry, you'll be sorry when this Hennessey  
Don't fool yourself  
Your eyes don't lie, you're much too good to be true  
Young firefly  
I feel you burning, everything's burning  
Don't fly too high  
Your wings might melt, you're much too good to be true  
I'm just, bad for you  
I'm just bad, bad, bad for you  
Don't fool yourself  
Your eyes don't lie, you're much too good to be true  
Young firefly  
I feel you burning, everything's burning  
Don't fly too high  
Your wings might melt, you're much too good to be true  
I'm just, bad for you  
I'm just bad, bad, bad for you /2x

Lost and beat up  
Dancin', down there  
I found you, somewhere out  
Right 'round there, right right there  
/2x

[Sia:]  
I was lost and, beat up  
Turned out, burned up  
You found me, through a heartache  
Knowin', you were drawn in  
I was lost and, beat up  
I was warm flesh, unseasoned  
You found me, in your gaze  
I found me, or Jesus  
I was too wild /6x  
Amongst the yellow eyes
