

KARI, Talk To Me

Talk to me
And feel my heart
It's beating /2x
Fast
Follow me
Where only trust
Can show you the deepest parts
Talk to me
And make a start
Our movie is playing out
Honesty, a foggy path
But tonight we'll light it up

I'm unafraid
There's a reason that we feel this way
Let go
Let the words escape
I've got a feeling that we feel the same

Talk to me
And see my heart
We're moving /2x
Up
Gravity
Is pulling out
The secrets inside us
Honesty
A simply start
We're jumping onto the dark
Part of me
Believes I can't but I know you'll show me how
