

# Karin Ann, i yearn for agony

Love me or hate me  
Why won't you call me?  
Hate me or kill me  
Kill me redeem me  
Need me or don't  
you Don't need me  
And now you're tied down  
Down below

Below the floorboards  
Below the floor  
End me i'll end you  
I will redeem you  
Before you beat me  
To my lonely place

I never really thought about it  
But i yearn for agony

Needles in my heart  
Stick pins in my head  
I like to fantasize about my own death  
I never really, really thought about it  
But i yearn, yearn for agony

I push all my friends  
My friends away  
Never begging tchem to stay  
Lock me out, leave me for dead  
He puts his gun against my head  
I won't telli f you won't tell  
We're all messed up in our won way  
So please just push me away

I never really thought about it  
But i yearn for agony
