Karin Ann, i yearn for agony

Love me or hate me
Why won't you call me?
Hate me or kill me
Kill me redeem me
Need me or don't
you Don't need me
And now you're tied down
Down below

Below the floorboards Below the floor End me i'll end you I will redeem you Before you beat me To my lonely place

I never really thought about it But i yearn for agony

Needles in my heart Stick pins in my head I like to fantasize about my own death I never really, really thought about it But i yearn, yearn for agony

I push all my friends
My friends away
Never begging tchem to stay
Lock me out, leave me for dead
He puts his gun against my head
I won't telli f you won't tell
We're all messed up in our won way
So please just push me away

I never really thought about it But i yearn for agony
