

# Karmin, Remembered

Secret's out, we're the same  
Holding out for the big fame  
Loud and proud, unashamed  
You only live once with your name  
Lights will dance, just for me  
All the people agree  
I survive, on the top  
And I'm not gonna stop

So I gotta leave something, so I gotta leave something

Something to leave behind, something that I define  
I just wanna be seen and heard  
Something to freeze in time, something that I call mine  
I just wanna be remembered

Secret's out, we're the same  
Holding out in the pride game  
Over time, colors fade  
Nothing but age will claim  
Where we've been, where we were  
When I'm 6 feet under  
What will be my legacy  
It's all that I got

So I gotta leave something, so I gotta leave something

Something to leave behind, something that I define  
I just wanna be seen and heard  
Something to freeze in time, something that I call mine  
I just wanna be remembered /x2
