Kasabian, Ovary Stripe

Coco believe me I'm a lonesome man I wanna get stoned and trip some wires I wanna get myself underground

I said that, you must believe me When I say I'm fightin the dead Lyin low across the evening Can you see the lumps on my head

But I got these voices that just keep singin out Sayin
I just cant stop losin control
I just cant stop losin control
Said that I just cant stop losin control
I just cant stop losin control
I just cant stop losin control
Said that I just cant stop losin control

Trench wander pavement Tryin to score some love In the corner of the city Matching faces with fees

I guess that you never been here by the look upon your face Standing with all the whores and cannibals In the censored race

Singin out
I just cant stop losin' control
I just cant stop losin' control
Said that
I just cant stop losin' control
I just cant stop losin' control

Singin out
I just cant stop losin' control
I just cant stop losin' control
Said that
I just cant stop losin' control
I just cant stop losin' control

I said that, you must believe me When I say I'm fightin the dead Lyin low across the evening Can you see the lumps on my head

I guess that you never been here by the look upon your face Standing with all the whores and cannibals In the censored race

Singin out
I just cant stop losin' control
I just cant stop losin' control
Said that
I just cant stop losin' control
I just cant stop losin' control

I've got these voices
