

# KASE and WRETHOV, One Life

"What if god told you  
To write a masterpiece?  
Would you tell 'I'm you couldn't read?"

There's only one life  
It's right here, it's right now  
What is pain  
Do you really wanna live this way?  
Do you really wanna live this way?  
Only one life  
It's right here, it's right now  
What is pain  
Do you really wanna live this way?  
Tell me do you wanna live this way?

"Wise men say  
Life is what happens  
While you're busy making plans  
Life's not a rehearsal  
Gotta live it while you can  
And getting a second chance  
Is my blame and circumstance  
Is that what men in the mirror  
Read it and chase for answers, hey!  
I could have defended me and the best  
My family's car crashed  
My brother fall getting stucked  
Perhaps then, turn up the van and loosing my day  
Shaking that our glass reverse to stand back  
But the wheels on the bus keep rolling  
Rolling all goin' aint nobody really knowin'  
It's just flowin' a moment that  
Can't be gone and admit it  
So you gotta give heart  
Never be timid, ahhh"

There's only one life  
It's right here, it's right now  
What is pain  
Do you really wanna live this way?  
Do you really wanna live this way?  
Only one life  
It's right here, it's right now  
What is pain  
Do you really wanna live this way?  
Tell me do you wanna live this way?

"Complaining bout misdemeanors  
While millions of people starve  
Rather spend money shoppin' or sending gadgets to mars  
Wintertime keep our cars in heated garage  
For the homeless in the winter heat is just a mirage  
I ain't saying I can change the world  
Rappin' these bars but I can give a voice  
Support the people and get involved  
Increase the love decrease hatred  
And the scars that too many of us  
Carry all buried up in our hearts  
Brother we can do some or we can do none  
Ignorance is similar to a loaded gun  
So don't let it pop off or we're all done  
We've only got one"

There's only one life

It's right here, it's right now  
What is pain  
Do you really wanna live this way?  
Do you really wanna live this way?  
Only one life  
It's right here, it's right now  
What is pain  
Do you really wanna live this way?  
Tell me do you wanna live this way?

&quot;Your only got one life  
And now we takes  
Got ass for self&quot;

Do you really wanna live this way?  
&quot;this way&quot;  
Only one life  
It's right here, it's right now  
What is pain  
Do you really wanna live this way?  
&quot;this way&quot;  
Do you really wanna live this way?  
&quot;this way&quot;  
Only one life  
It's right here, &quot;right here&quot;  
It's right now, &quot;right now&quot;  
What is pain  
Do you really wanna live this way?  
&quot;this way&quot;  
Tell me do you wanna live this waaay?  
&quot;Think about it.&quot;
