

# Kashmir, Victoria

I know that you love me  
you hunt me down and bug me  
I don't think you're lovely at all

you're sixty, I'm twenty  
you've none and I've got plenty  
oh, lord tell me where I can hide

take your time make up your mind  
and let me know just where you go  
'cuz I won't be there.... I won't be there  
take your time make up your mind  
and let me know just where you go  
'cuz I just won't be there!

I know that you want me  
'cuz everywhere you haunt me  
I might leave this country for good  
I try to escape you  
you're begging me to take you  
i'd rather be 'hued' by the crowd

take your time make up your mind...

victoria, you're everywhere  
I try not to breathe 'cuz you're in the air  
victoria: paranoia!  
victoria, you're everywhere  
I try not to breathe 'cuz you're in the air  
victoria: euphoria!
