Kashmir, Victoria

I know that you love me you hunt me down and bug me I don't think you're lovely at all

you're sixty, I'm twenty you've none and I've got plenty oh, lord tell me where I can hide

take your time make up your mind and let me know just where you go 'cuz I won't be there.... I won't be there take your time make up your mind and let me know just where you go 'cuz I just won't be there!

I know that you want me 'cuz everywhere you haunt me I might leave this country for good I try to escape you you're begging me to take you i'd rather be 'hued' by the crowd

take your time make up your mind...

victoria, you're everywhere
I try not to breathe 'cuz you're in the air
victoria: paranoia!
victoria, you're everywhere
I try not to breathe 'cuz you're in the air
victoria: euphoria!
