

Kasia Klimczyk, I Got You

Just said I need you
Just said I need you so bad
Look around me settle down
You standing on the corner
Spying on me
I'm not alone here anymore

I got you
I got you
So I don't need to be sad

Everyday with you
It's the best I gotta do
Appreciate what you have
Appreciate what you have
You never know when he goes

Sometimes it's not as it should be
Sometimes the wind blows in your eyes
I'm not worried i haven't got reason
When you're with me
I'm not alone here anymore
I got you I got you
So I don't need to be sad

Everyday with you
It's the best i gotta do
Apreciate what You have
Apreciate what you have
You never know when he goes
