

Kasia Moś, I Can't Say

?

It is hard to forget
Everything that we've been through
But I can't say: I love you
Something change the way I look at you
I'm scared that I'll disappoint myself
But I can't say that I love you
But I can't say that I need you

How ? only want to blame
That I can't burn this flame again
We even can't be friends
You didn't help me to accept myself
I even didn't know who I am
That's I'm so proud I didn't stay
But I can't say that I love you
But I can't say that I need you
But I can't say that I love you
But I can't say that I miss you

No more dark clouds above my head
From now I want sun daily come in
I need a glass sphere to know the future
No more tears, ?, hurricanes behind my back
No more dark clouds above my head
From now I want sun daily come in
I need a glass sphere to know the future

But I can't say that I love you
But I can't say that I need you
But I can't say that I love you
But I can't say that I miss you
But I can't say that I love you
But I can't say that I want you /2x
But I can't say that I miss you
But I can't say that I want you
But I can't say that I want you more
But I can't say that I love you?
