

# Kasia Moś, I Wanna Know

What's the road  
The way of destination  
I am a girl  
Full of dreams and questions

Cause I wanna know  
The run of destination  
I wanna know  
The road of satisfaction

I fall asleep  
I think it's better perception  
Dream and forget  
My life situation

I fell it's gone  
What I used to think  
When you look at me  
It's all gone  
You will see me in  
The world of dreams

I dream about you  
I fell that all it's true  
But in the world  
Some things always wrong  
I love you so  
There is no speculation  
When I'm with you  
I only feel perfection

I fell it's gone  
What I used to think  
When you look at me  
It's all gone  
You will see me in  
The world of dreams

No one can separate us  
We'll be together  
Forever

I fell it's gone  
What I used to think  
When you look at me  
It's all gone  
You will see me in  
The world of dreams  
I fell it's gone  
You will see me in  
The world of dreams
