## Kasia Moś, Wild Eyes (feat. Norma John)

Silence, silence /x2

I've been everywhere looking for a reason to stay

Honey, by the fear never finding may way

It's been raining for days now My darling I wish I could stop the sky from falling

I've been everywhere looking for a reason to stay

Now, I'm standing in silence, silence Now, I'm standing in silence, silence

Try to find if this still is spark underneath I'm burning on like a cigarette between your teeth

Never (...)
I can barely see you staring at me

Try to find if this still is spark underneath

Now, I'm standing in silence, silence Now, I'm standing in silence, silence

Close in Wild Eyes Close in Wild Eyes /x2

Now, I'm standing in silence, silence Now, I'm standing in silence, silence
