

# Kasia Nova, Love Is Music

Now, we're gonna let us out  
Completely forget about us  
Let the whole world stop spinning round, round  
This moment, You and me  
Whoever we want to be  
Nobody here is gonna put us down

Close your eyes  
And free your mind  
All we have is time

Love is Music  
That I make with you  
Here's the melody to take with you

We can play air-guitar  
Pretend we're rock stars  
We can do anything we want to do  
Live where we want to live  
Give, what we want to give  
Don't Let anybody be the judge of you

Close your eyes  
And free your mind  
All we have is time

Love is Music  
That I make with you  
Here's the melody to take with you

Everybody knows  
Most people don't dream  
What they want to dream  
But maybe you and me  
The destiny calling
