

# Kasia Stanek, Inversion (ft. Wojtek Pilichowski)

I'm a new-created wife  
You keep your mouth shutting  
We burn out our desire  
I don't say what it replied  
You'll stay with me tonight  
You can say whatever you want  
I don't care

Now, I want you please step aside  
I want to be in your spotlight  
I get to go  
I still in your show  
O, darling come get on your knees  
From now move your head  
To please me!  
When you don't look creamy  
My .. I forget you're thirsty  
And get me some blues
