

# Kaskade, All You

All you tonight  
Lift me up  
All you tonight  
Fill my cup  
All you tonight  
Get me through  
All you tonight  
All you

All you  
You give me the love  
My heart is fully beating  
So alive at this moment  
With the rhythm leading  
All you  
You look for the good  
You find it, you make it  
So much that pulls us down  
Extend a hand  
I'll take it
