

# Katatonia, Lacquer

My voice channeling  
A circuit's end  
The house we lived in  
Stricken with blight  
Finding ways to kill the pain  
Let the river run wild  
Dreams shattering  
Aerial sound

Scrape the lacquer  
Can't you see, it's all tarnished

Tried the poise  
To radiate  
Tried my words  
To illustrate  
Finding ways to end the pain  
I let the river run wild  
Dreams shattering  
Fixing to die

Scrape the lacquer  
Can't you see, it's all tarnished

The levee breaking  
I can't live to fight once more  
The levee breaking  
I can't live to fight once more

The road to the grave is straight as an arrow  
I'm just staying around to sing your song, baby  
The road to the grave is straight as an arrow  
I'm just staying around to sing your song, baby

My voice travelling  
Soaring bird above your head  
The house we lived in  
Ridden with disease

Scrape the lacquer  
Can't you see, it's all tarnished

The levee breaking  
I can't live to fight once more  
The levee breaking  
I can't live to fight once more

The road to the grave is straight as an arrow  
I'm just staying around to sing your song, baby  
The road to the grave is straight as an arrow  
I'm just staying around to sing your song, baby
