

KATE BOY, HIGHER

It doesn't have to be this way
We're different, still the same
Move your mind to a higher state
You and I

We are, we are, we are, we are higher, higher, higher
We are, we are, we are, we are higher, higher
Push through and climb to a higher ground

When you're reaching your limit and feeling resentment from how it falls
You thought something was in it, but now it's beginning to break apart
You gotta fight to rise above

Feel emotion get triggered and figure there's something blocking the road
But I know that a flicker gets bigger, I know that I'm not alone
We gotta fight to rise above

Cause I dream of the day we can say that we changed us

It doesn't have to be this way
We're different, still the same
Move your mind to a higher state
You and I

We are, we are, we are, we are higher, higher, higher
We are, we are, we are, we are higher, higher
Push through and climb to a higher ground

Higher, higher than myself
Higher, higher than anything else
Cause I dream of the day we can say that we changed us

We are, we are, we are, we are equal, equal, equal
We are, we are, we are, we are equal, equal, equal

Higher and equal
Higher and equal
Higher and equal
Higher and equal
