

# Katharine McPhee, Lick My Lips

Your love don't need to shoot a cool aid  
You make me rush, get me up all night  
And when I taste it I won't hold not just a little bit  
You feel me up baby it's alright  
Gorgeous  
Baby come on into my open arms  
Gorgeous  
Any time you need me all my buttons come undone

You make me lick my lips  
You're my favorite baby  
When we kiss  
I just wanna savor every drop of it  
I can't get enough you make me lick my lips, my lips

I'm on top when I'm with you so exciting  
I can't deny, you make me feel so good  
You're my chain, I wanna turn you up louder  
Now let me see what's underneath that hat  
Gorgeous  
Baby come on into my open arms  
Gorgeous  
Any time you need me all my buttons come undone

You make me lick my lips  
You're my favorite baby  
When we kiss  
I just wanna savor every drop of it  
I can't get enough you make me lick my lips, my lips

Baby you're the only one I need  
Won't you come and put your lips on me

You make me lick my lips  
You're my favorite baby  
When we kiss  
I just wanna savor every drop of it  
I can't get enough you make me lick my lips, my lips

You make me lick my lips  
You're my favorite baby  
When we kiss  
I just wanna savor every drop of it  
I can't get enough you make me lick my lips, my lips
