

# Katie Melua, A Love Like That

I'm taken in by what you've told me  
But keep it all inside your songs  
This isn't real , you don't even know me  
How am i what you're thinking of

You see you're turning a little crazy  
Speakin' love into the dust  
I've seen it torn into every shape  
I've seen it leaving fast

It's a burnin' fire  
It'll be a wreck  
A bitter ream  
It falls like rain  
It turns to dust  
How do you make a love like that last?  
How do you make a love like that last?

If you wanna know the answer's yet  
I want you for my only one  
Everything feels inside out  
My blood is burning in the sun

How did you make the rays so strong  
The haze of love when you are near  
Aren't afraid of the state of us  
When it disappears?

It's a burnin' fire  
It'll be a wreck  
A bitter ream  
It falls like rain  
It turns to dust  
How do you make a love like that last?  
How do you make a love like that last?  
It's a burnin' fire  
It'll be a wreck  
A bitter ream  
It falls like rain  
It turns to dust  
How do you make a love like that last?  
How do you make a love like that last?
