

Katie Melua, Butterfly

I won't hurt you
I'll protect you
I won't let the rain fall down
I'll always be around

And baby I will understand
If sometimes You just want
To spread your wings and fly
And let your colours shine

And everyday
I wanna be a risk you take
Make a promise that
Will never break for life

You're my butterfly
And Don't fly away
Open my hands you read
Praying you'll come back to me
You're my butterfly
And don't fly away
You're my reality
Always be my gravity
You're my butterfly
Ooo Yeah
Come on and touch the sky
You're my butterfly

I won't forget you
Or neglect you
Won't let no one take your place
In your eyes I see my face

And baby do you know
That everybody watches
Every time that you take flight
They're blinded by your light

Every day the feelings
gonna be the same
I can promise that
will never change for life

You're my butterfly
And Don't fly away
open my hands your free
Crying you'll come back to me
You're my butterfly
And don't fly away
You're my reality
Always be my gravity
You're my butterfly

I won't hurt you
I'll protect you
Always be around
And everyday
I wanna be a risk you take
Make a promise
I will never break for life

Oh Hold on
Hold on
I'll be here

ooooo oooo ahh hey
'cause Your my butterfly
Whenever you need me here
Whenever you need me
I'll be there
I'll be there

Whenever you need me here
Whenever you need me
I'll be there
I'll be there
Don't fly away
Open my hand you read
Crying you'll be back to me
Your my butterfly

Don't fly away
Your my reality
Always be my gravity
