## Katie Melua, I Do Believe In Love

They say we never landed on the moon There's no wind there, they assume I guess conspiracies are nothing new, But I'm sure I've been there with you.

And I don't believe that in space
The only life is here on earth
How could we be the only race
That loves and hates 'til death from birth?

But I do believe in love, Though I should never rely on love Nothing else excites me, But loving you.

Is it true a politician's heart Can rust away and fall apart? I guess it must be hard, It must be hard, To know what's good and to know what's easy

You might think it's strange, For all my wild ideas, But I do not believe that change, Can ever happen without tears.

But I do believe in love, Though I should never rely on love Nothing else excites me, But loving you
