

Katie Melua, Quiet Moves

Utwór 'Quiet Moves' z albumu 'Love & Money' od Katie Melua (premiera 24 marca 2023r.)

Rhythm pounds and ascending chords are all I hear
A voice that tells me I can't dance won't disappear
Seconds are making my heart and my head go baddum baddum baddum
Having you here makes that all go away

It's amazing how you dance, it's never a lie
Picking out imperfect steps to put them in time
All of your life on those ten thousand hours while the seasons are changing
Having you here makes that all go away

And I like your quiet moves
Speak of the day and the way you sit
And the things you choose
Subtle and quiet by a fire
Growing up in England made you who you are

You had to learn to fend for yourself when you were young
You don't need those grown up toys so many rely on
Your endless journeys and adventures always hummed but never sung
While everyone wants their names in lights

And I like your quiet moves
Speak of the day and the way you sit
And the things you choose
Subtle and quiet by a fire
Growing up in England made you who you are
Who you are
Who you are

And I like your quiet moves
Speak of the day and the way you sit
And the things you choose
Subtle and quiet by a fire
Growing up in England made you who you are
Who you are
Who you are
