

# Katy B, Next Thing

Keep your jacket on, my friend  
Don't feel down  
There's so many things to do round here  
Let me show you around

But stay late and  
Then we're out the door  
Keep them waiting  
Then leave them wanting more

We'll be on to the next thing  
Leave them wanting more  
Then we're on to the next thing  
Leave them wanting more  
Then we're on to the next thing  
Til the break of dawn  
We'll be on to the next thing  
Leave them wanting more

I'll show you how to make a scene  
Follow my lead  
Give them something to remember us  
Before we leave

Don't need money  
Cause we put on a show  
Causing chaos  
Everywhere we go

We'll be on to the next thing  
Leave them wanting more  
Then we're on to the next thing  
Leave them wanting more  
Then we're on to the next thing  
Til the break of dawn  
We'll be on to the next thing  
Leave them wanting more

We'll be on to the next?

We are the creators and the troublemakers  
Coming when we hear the sound  
The instigators, love us or you hate us  
You'll be seeing us around

We'll be on to the next thing  
Leave them wanting more  
Then we're on to the next thing  
Leave them wanting more  
Then we're on to the next thing  
Til the break of dawn  
We'll be on to the next thing  
Leave them wanting more
