

# Katy Perry, Broken

(Feat. The Matrix)

I wear the red shoes  
With the holes  
To remind me  
What we went through  
Sit down here  
Kick 'em off enough  
Not had enough of you  
I tell you  
You know  
The car you drive  
Keeps breaking down  
And never starts  
Next thing  
I'm pulling up to you  
We're in the backseat  
Driving it home  
No one wants  
To be alone

Chorus:

What do you do?  
What do you do  
When everything  
Is broken?  
What do you say?  
What do you say  
When no words  
Fit the moment?  
'Cuz you're not here  
And even if you were  
All I could say  
Is what do I do?  
What do I do?  
We're broken  
But I can't  
Throw us away  
The video  
Of our vacation's  
Chewed up in the drawer  
Beside me  
She thinks I never got  
To watch it  
I'm so glad  
I made a copy  
The sky  
Got bitter twisted  
Just like you and me  
I miss it  
You snap it  
Bend it  
Burn it  
Then you find  
That you can't fix it  
Fall back on whatever  
Still remains

(Chorus)

Breaking you in  
Breaking your heart  
I was taking it all  
And I tore you apart  
Breaking me in  
Breaking my heart  
And the damage was done  
But I took what you got

We were breakin' it  
Smashin' it  
Takin' it  
Lovin' it  
Hatin' it  
Drivin' it home  
And now I'm all  
Now I'm all alone  
Oh, yeah (4x)  
(Chorus)  
What do I do?  
We're broken  
But I can't  
Throw us away
