

# Katy Perry, Electric

In the dark when you feel lost  
Wanna be the best  
But at what cost?  
If you're gonna stay here  
Nothing's ever changing, no  
Big world, gotta see it all  
Gotta get up even when you fall  
There's no point on waiting, no

They'll try to bring you down  
But you've ggot the power now

I know you feel it  
If you believe it wthen you can ELECTRIC!  
There's no reason  
That this life can't be  
I can see it, see it  
If you believe it then you can  
There's no reason tah this life can't be ELECTRIC!

Long road, gotta ways to go  
Take e big step, but you're not alone  
Cause we got eachother  
There's so much you'll discover  
Head strong, but your heart is stronger  
Stay calm walking through the fire  
I know you're gonna make it out

They'll try to bring you down  
But you've ggot the power now

I know you feel it  
If you believe it wthen you can ELECTRIC!  
There's no reason  
That this life can't be  
I can see it, see it  
If you believe it then you can  
There's no reason tah this life can't be ELECTRIC!

They'll try to bring you down  
But you've got the power now  
ELECTRIC!  
But you've got the power now  
ELECTRIC!

I know you feel it  
If you believe it wthen you can ELECTRIC!  
There's no reason  
That this life can't be  
I can see it, see it  
If you believe it then you can  
There's no reason tah this life can't be ELECTRIC!
