

Katy Perry, Use Your Love

I know you know my boyfriend is outta town
So have a drink, let's talk it over
So many things I shouldn't be sayin' now
You know I like my boys a little bit older

[Chorus:]

I just wanna use your love tonight
I don't wanna lose your love tonight

All my girls are nowhere to be found
They all split when I'm in trouble
But I'll tell you all my secrets, if you stick around
Be undercover lovers, under the covers

[Chorus]

Try to stop my head from spinning
Too much to drink, not makin' sense
It's been a while since I've been with someone new
But I can't stop the way I'm feeling

As you leave please would you just close the door
Now that our love affair is over
You're exactly what I was looking for
Go find a shoulder to cry upon

[Chorus x5]
