## Keane, Maps

I see I'm a long, long way from where I am supposed to be And frankly I'm still happy here I know where I'd rather be

So whether youre lonely like the sun Or you rely on everyone There's no need to be lonely There's no need to be low We're lines and maps and cities and songs

Feel fear the closer it comes Till I don't know how it feels Till I don't know how it feels Till I don't know

A million miles from anywhere But anyway I don't deny the more you see The more I try to change your mind

So whether youre lonely like the sun Or you rely on everyone There's no need to be lonely There's no need to be low We're lines and maps and cities and songs

Feel fear the closer it comes Till I don't know how it feels Till I don't know how it feels Till I don't know

But I'm here whenever you say Ever you say

Oh, little by little she blows And that's the end of it And little by little she blows And that's the end of it
