## Keane, Thin Air

I can't keep up, you're moving too fast, Deep holes and darkness, these things will pass. Dark times and strange places where... When I came to see you you had nothing to say, I stood right beside you, you turned the other way, I reached out to hold you and found nobody there, You turn into air. Trust me, I want you just as you are, Don't change the things you do, just stay as you are. Dark turns and strange places where... When I came to see you you had nothing to say, I stood right beside you, you turned the other way, I reached out to hold you and found nobody there, You turn into air. (Instrumental break) Dark times and strange places where... When I came to see you you had nothing to say, I stood right beside you, you turned the other way, I reached out to hold you and found nobody there, You turn into air.
