

Keane, Time To Go

Now, during a scene
Seen it all before
We drink, we drink a little much
Drink a little more
To shake off the nerves and
To take off the edge and
Now is there any way back home?
Seen it all before and
I know the signs
We drink, drink a little much
To stimulate the mind
Now it's two hours to go
Insult everyone that we know
Now its such a long way home
Maybe its time to go?
Maybe its time we went?
Youre making a spectacle
Maybe its time we left?
I dont wanna spoil your night
I dont wanna hurt your pride
But maybe its time to go
Maybe its time?
Now eating from your hand
Laugh at every line
Soon losing track of you
Losing track of time
Now its dead on the dancefloor
And nobodys laughing anymore
Have I become a tiresome bore?
Maybe its time to go?
Maybe its time we went?
Youre making a spectacle
Maybe its time we left?
I dont wanna spoil your night
I dont wanna hurt your pride
But maybe its time to go?
Maybe its time?
To go where theres nowhere to hide
From whats broken inside
A faultline rips right open
Under the wide wide ocean's tide
Under the wide wide ocean
Maybe its time to go?
Maybe its time we went?
Youre making a spectacle
Maybe its time we left?
I dont wanna spoil your night
I dont wanna hurt your pride
Maybe its time to fly
Maybe its time?
Maybe its time to go?
Maybe its time?
