

# Keith Moon, One Night Stand

Heard the call and I packed it all  
And I'm on the road again  
You can help to ease my low  
And I will be your friend  
But the morning brings the sunlight  
And the sunlight brings my friend  
So I say goodbye to lonely I want L.A. back again

One night stand in New York City  
Lights are bright and the girls are pretty  
Held her heart and I held her hand  
Good bye lady  
I'm a one night stand

Oklahoma, Arizona  
Wish I knew for sure  
Came to town and I held my ground  
That's what I came hear for  
But the voices in the distance  
And they're calling me back home  
I'll be leaving in the morning  
Guess my fate is not my own

One night stand in New York City  
Lights are bright and the girls are pretty  
Held her heart and I held her hand  
Good bye lady  
I'm a one night stand

Gypsy queens and magazines  
Living off the land  
Don't make ties and don't tell lies  
Do the best you can  
But of every place I've been to  
And of everything I've seen  
I feel lonesome among strangers  
I feel naked without strings

One night stand in New York City  
Lights are bright and the girls are pretty  
Held her heart and I held her hand  
Good bye lady  
I'm a one night stand  
Good bye lady  
I'm a one night stand
