

# Keith Murray, Christina

I'm always getting shitted on son, ain't gonna be no, no different  
Can you accept me as I am? I ask you  
Always, the love lords? I need you  
Can you open your heart to mine and accept me and all my faults  
During the human course activity, watch me give me my room  
I am radiant, give me my space, I am light

[Verse 1]

Yo, 2/27/98 I wrote a check out  
to H.W. funeral home for my little sister Christina  
15 years old damn man this fuckin world is so cold  
8 months before I had to do three years  
Coming from the air port my face burning with tears  
I had this black cloud hovering over me  
Far back as I can check back down my family tree  
Its been with me since my first LP  
2nd LP I was sittin in court  
3rd LP I was trapped in the belly of the beast, got it back to the streets  
by the power of the mind and positive of light  
some say livin is death and dying is life  
I say pray for me that I should be born tonight  
I remember roaming the streets in those cold winter nights  
Look at me this is my life

[Chorus]

Suddenly my life feels so alone, tell me what the hell is going on  
Tell me, tell me, why my life feels so alone, so wrong  
Tell me what the hell is going on  
Help me, please help me

[Verse 2]

I can't even begin to explain the mental anguish  
I went through as a child when I heard my pops had passed  
I went to see him on the sick bed  
with my grandmother, that day I knew it was the last  
I loved him but I had to grow up without him  
Over the years I've lived through frustrations and questions  
In 90' I went to jail as an adolescent  
Then in 92' my moms had to go back to the essence  
Got me thinkin about the meaning of my existence (I lost my best friend)  
I realised the devil was spying on my from a distance  
He don't want me to receive my blessings he fear me  
My family suffered more deaths then the Kennedy's  
This is real and if you don't believe me ask someone that grew with me  
Know them and feel my energy  
Please never fabricated nor duplicated so I ask you  
Can you open you hearts and minds and receive me with all my faults  
Can you open your hearts and minds unconditionally to begin to understand my cause  
Hey yo this world is a pool of sharks  
But I'm the animal right when I stand up for myself and bark  
And this year I gotta go all out for it  
I've been hustlin for 13 years, nothin to show for it (I mean nothin)  
Lookin over my bills damn they eaten me up  
Entertainment task force watchin so what the fuck  
I paid my taxes too fuck you and your uncle  
The laws of nature will see me through  
And yeah I peep it and naw it ain't no secret  
How niggaz give their word with no intentions to keep it  
I'm givin you the roots of the real  
My emotional feelings bi-polar is how I feel

[Chorus]
