

# Keith Sweat, You Got Me

[Lox]

Uh, yeah, uh huh, yeah  
Yeah, yeah, yeah, uh huh, yeah, yeah  
It's another one  
Uh huh, yeah, yeah  
It's another one, and another one

You got me where you want me  
You could listen to Levert while leaving the country  
And then sweat it out when you feel comfy  
Or play Gill to the minute that ou say you're hungry

Uh, you got me where you want me  
You could listen to Levert while leaving the country  
And then sweat it out when you're feeling comfy  
Or play gill to the minute that you say you're hungry

Uh, you got me where you want me  
You could listen to Levert while leaving the country  
And then Sweat it out when your'e feeling comfy  
Or play Gill to the minute that you say you're hungry

[LSG]

I know  
You need  
Love and understanding  
Sometimes  
Feel like  
I can't give you more of my time  
You keep on wanting me  
To be there girl  
But I can't be  
Why you keep stressing me  
When you know I'm doing my best  
I keep on telling you  
I do the best that I can do  
How can I get through to you  
Everything I do is for you

1 - You got me where you want me  
Tell me what you need  
Take me baby  
Tell me what you want  
Anywhere you wanna go is for me  
You got me where you want me

I can't keep on going through these changes  
The more you doubt me  
You keep pusing me away girl

You keep on wanting more  
I'm doing my best  
I'm doing everything for you

Repeat 1

Girl, you got me yearning  
Yearning to know what I'll do with love  
Can you tell me what I'm doing  
But I'm always saying you don't understand  
I'll never leave you alone

Repeat 1

Repeat Lox

Repeat 1 until fade
