

Keith Urban, If You Wanna Stay

Go if you wana go, stay if you wana stay
My hearts not a game you can play with and out away
Baby tryin' to figure you out, could make a man go insane
So just go if you wana go, stay if you wana stay...

Dream what you want to dream, be who you gotta be
I never wana be the one who kept you from being free
But girl I gotta know what you want, 'cause I've takin' all I can take
So just go if you wana go, stay if you wana stay...

Every time you decide, to spread your wings and fly
You make the same mistake, and I can't take anymore goodbyes
So baby just go if you wana go, stay if you wana stay...

Every time you decide, to spread your wings and fly
You make the same mistake, and I can't take anymore goodbyes
So baby just go if you wana go, stay if you wana stay...

I don't wana lose everything our love has made
But I don't wana feel alone everytime you go away
So just go if you wana go, stay if you wana stay...

Mmmm baby just go if you wana go, stay if you wana stay...
