

# Keith Urban, Won't Let You Down

Everybody says that when it comes to friends  
The truest ones are counted on one hand  
But take a look around before you hit the ground  
The only one you'll see will be this man

Yeah, I'll catch you when you fall  
Cause I'm the one who loves you  
You'll never wonder if I care, I'll always be there  
Standing there in losing ground  
I'm your best friend now and I won't let you down  
No, oh

Yes, I've been a fool but I've learned what not to do  
Don't take for granted those who keep their faith in you  
And if you lose your way on some rainy day  
Just look above and I will be the sunshine breaking through

Yeah, I'll catch you when you fall  
Cause I'm the one who loves you  
You'll never wonder if I care, I'll always be there  
Standing there in losing ground  
I'm your best friend now and I won't let you down

And every step along the highway of your life  
I'll be the man standing beside you  
Believe me that I will  
Don't forget you came and you saved me  
You saved my life

Yeah, I'll catch you when you fall  
Cause I'm the one who loves you  
You'll never wonder if I care, I'll always be there  
Standing there in losing ground  
Cause I'm your best friend now  
And I won't let you, I will not let you  
I won't let you down
