

# Kelis, I Want Your Love

I'm at work and you're on my mind  
And I'm hoping to find some time  
To get your loving  
Lately we've needed to take a break  
So anxious that I can't wait  
To get your loving

[1] - I want your love  
I need your love  
You are the only that I've been dreaming of  
I want love  
I want your love, love, love  
You know that I've gotta get your love

I'm know you're boss can be real mean  
Especially when you're thinking of me  
To get my loving  
You want me yes I know  
Tell me how far would you go  
To get my loving

[2] - Baby don't you hear me calling  
If you have some time  
You can come spend the night

[Repeat 2]

[Repeat 1]

Many will search high and search low  
But it's like only few will know  
To get this loving  
The nerve to tell people these words  
Baby, baby don't we deserve  
To get this loving

[Repeat 2]

[Repeat 2]

[Repeat 1]

Oh, oh, oh, oh

[Repeat 2]
