

# Kelly Clarkson, Judas

The only one who took you in  
The only one who held your hand  
Defended you against the others  
Had your back on everything  
Never let you down  
You turned around betrayed your only brother

Forgetting me, you took things in your hands and left me out  
After we'd been through so much, how could you let me down?

I didn't know, I didn't know  
I couldn't see, I couldn't see  
Never thought you'd forget me  
Couldn't believe, couldn't believe  
How you deceived, you deceived  
I never thought you'd do that to me

I will never be like you  
I'll never do the things you do  
Selfish and lonely, what's your problem  
Letting go of you and this  
Is harder than I thought but I will not be poisoned by your actions

Forgetting me, you took things in your hands and left me out  
After we'd been through so much, how could you let me down?

I didn't know, I didn't know  
I couldn't see, I couldn't see  
Never thought you'd forget me  
Couldn't believe, couldn't believe  
How you deceived, you deceived  
I never thought you'd do that to me

Forgetting me, you took things in your hands and left me out  
After we'd been through so much, how could you let me down?  
Down, you let me down
