Kelly Family, Oh God

Forgive me father for I've sinned I know your mercy has no end Save me from this state I'm in I drifted off again A greater love I will not find Your son you gave up for mankind Kneeling down before the cross Now I'm no longer lost

Oh God oh God you give me so much love Oh God oh god you saved me through your blood

I'm thirsty yes I thirst for you You know me better than I do You rescued me before I drowned A lost sheep has been found

Only truth will set me free So holy spirit come to me Take my life into your hands Whatever that demands

Oh God oh God you give me so much love Oh God oh God you saved me through your blood So much love bless my soul eternal life

Be careful be careful

Oh God oh God you give me so much love Oh God oh God you saved me through your blood Oh God oh god you give me so much love Oh God oh God you saved me through your blood So much love bless my soul eternal life
