

# Kelly Groucutt, You Don't Need To Hold Me Tight

Darlin' forgive me  
'Cause I've never felt this way before  
I can't stay unless I'm really sure  
Was it holding you tight  
Or was it just the way

The moonlight was shining?  
Turning my heart inside out  
I can't stay if there's a trace of doubt  
Was it holding you tight  
And kissing me the way you kissed me tonight  
Is it just the way you're holding me tight?  
And doing what you do  
I just can't hold on any more

You didn't need to hold me tight  
But in a way, I'd hoped you might  
You didn't have to call my name  
Over and over again  
You didn't need to act that way  
But since you did, I'll have to stay  
'Cause I need you so  
And I can't let go  
I love everything about you

And I will love you through your darkest nights  
And keep you safe from harm  
I will hold you in my arms  
Because I know you'll never let me go

I don't need a crystal ball  
To know I'll stay with you  
There's nothing I can do  
When you're holding me tight  
And kissing me the way  
You kissed me tonight  
Making love the way we made love tonight  
Doing what you do  
I just can't hold on any more

You didn't need to hold me tight  
But in a way, I'd hoped you might  
You didn't have to call my name  
Over and over again  
You didn't need to act that way  
But since you did, I'll have to stay  
'Cause I need you so and I can't let go  
I love everything about you

And I will love you through your darkest nights  
And keep you safe from harm  
I will hold you in my arms  
Because I know you'll never hurt me  
I will warm you when you're cold at night  
And keep you by my side  
I will hold you in my arms my baby  
You'll never have to worry 'bout me  
And I will love you through your darkest nights  
And keep you safe from harm  
I will hold you in my arms  
Because I know you'll never hurt me
