

# kenzie, EXHALE (feat. Sia)

Pressure building put that on me  
Time to finish what we started  
Give me what i always wanted  
Mirror mirror tell me something

You been holding on and on for way too long  
The beat is heated up the bass go boom

You been working double time to catch your breathe  
The tempo speeded up but don't yet

You need to  
You need to  
Ex hale  
So let everything go  
baby you in control  
You need to  
You need to  
Ex hale  
So let everything go  
Baby you in control

Don't stop keep it going  
Lights on lights off i'm still glowing  
Confidence i am overflowing  
Voices tell me keep your Focus

You been holding on and on for way too long  
The beat is heated up the bass go boom

You been working double time to catch your breathe  
The tempo speeded up but don't yet

You need to  
You need to  
Ex hale  
So let everything go  
baby you in control  
You need to  
You need to  
Ex hale  
So let everything go  
Baby you in control
