

# Keri Hilson, Love Ya

All them seem like they just want us to be over  
Don't wanna sound like haste when they don't even know ya  
They've got some much to say  
Like they are lookin' out for me  
Never gave me no reason to think you're cheating  
So why they keep tellin' me: "Keri, you should leave him  
But, baby, I'm stayin' here  
They don't mean a thing to me, yeah

You could be a thousand miles away  
I would be right here in the studio  
Nothing would change  
So, baby, there is nothing that they can say  
No matter how hard they try  
I still feel the same way

I'm not afraid to say that I love ya  
Cuz I'm not afraid of how I feel  
Why would I need to be out with another  
If I know what I got in home is real  
Don't need to be with a bunch of man, I know you do me the best  
Don't need a million opinions to know you ain't like the rest  
I'm not afraid to say that I love ya  
And I'll let the whole world know (I'm in love)  
I'm in love, I'm in love

They say in time I'm gonna walk some other action  
Say curiosity is gonna take over my actions  
They say you may be my first  
But you ain't gonna be my last boo  
That's when I tell 'em you surpase my satisfaction  
In every way and that's right, this is gonna last and  
If you're .... what I say  
I tell 'em back

You could be a thousand miles away  
I would be right here in the studio

And nothing would change  
So, baby, there is nothing they can say  
No matter how hard they try  
I still feel the same way

I'm not afraid to say that I love ya - I'm not afraid  
Cuz I'm not afraid of how I feel - I'm not afraid  
Why would I need to be out with another - Why would I?  
If I know what I got in home is real  
Don't need to be with a bunch of man, I know you do me the best  
Don't need a million opinions to know you ain't like the rest  
I'm not afraid to say that I love ya  
And I'll let the whole world know (I'm in love)  
I'm in love, I'm in love

Ooh, ooh, ooh...  
Oh, oh, oh...

I'm not afraid to say that I love ya - I love ya  
Cuz I'm not afraid of how I feel - ooh, and I don't care, they know  
Why would I need to be out with another - call me crazy, I don't care  
If I know what I got in home is real - no, oh  
Don't need to be with a bunch of man, I know you do me the best  
Don't need a million opinions to know you ain't like the rest  
I'm not afraid to say that I love ya

And I'll let the whole world know (I'm in love)  
I'm in love

I'm not afraid to say that I love ya - I'm not afraid  
Cuz I'm not afraid of how I feel - of how I feel  
Why would I need to be out with another - they don't really know  
If I know what I got in home is real - I got something real  
Don't need to be with a bunch of man, I know you do me the best  
Don't need a million opinions to know you ain't like the rest  
I'm not afraid to say that I love ya  
And I'll let the whole world know
