

Keri Noble, Look at me

Look at me
look into my eyes
tell me do you see
that i am always by your side
or has the world got you down
on your knees
come to me
look at you
look into your heart
tell me is there room for you
to make a brand new start
or has the world gotten to you
and made you dark
come to me
cause when you cry
all your tears i'll wipe away
and when you laugh
who you think got you that way.
when you dream
and you wake up
is it me you wanna see?
look at us
look around the world
cause all you seem to find are
unhappy boys, unhappy girls babe
and tell me is that what you want
for you and me
don't you wanna be happy
cause when you cry
all your tears i'll wipe away
and when you laugh
who you think got you that way
and when you dream
and you wake up
is it me you wanna see
look at me
look into my eyes
tell me do you see that
i am always by your side
or has the world got you down
on your knees
you can come to me.
you know you can always
come to me.
