

Khalid, Present

I know that you're on to me, bae
Tell me that you want me, bae
Really need your company, bae
If it's alright, you can roll with me, bae

Whip around town riding auto-pilot
See it in your eyes, I can tell you like it
Pull up in a Lamb, this is not a hybrid, my love
Give you everything, you get all of my love

Is it okay if I take the night to be present, yeah?
I can give you everything tonight (I can give you everything)
Is it okay if I take the night to be present, yeah? (Present, yeah)
I can give you everything tonight (Tonight)

I just wanna be with you, bae
Say the word, I'm comin' through, bae
Tell me what I gotta do, bae
Pulled up to your avenue, bae

Whip around town riding auto-pilot
See it in your eyes, I can tell you like it
Pull up in a Lamb, this is not a hybrid, my love
Give you everything, you get all of my love

Is it okay if I take the night to be present, yeah?
I can give you everything tonight (I can give you everything)
Is it okay if I take the night to be present, yeah?
I can give you everything tonight (Tonight)

I could give you my love
Everything is yours
All I have
You gotta say the word
Could be yours
Nothing in this world will change a thing
Nothing in this world will change a thing

Is it okay if I take the night to be present, yeah? (Present, yeah)
I can give you everything tonight (Give you everything tonight)
Is it okay if I take the night to be present, yeah? (Present, yeah)
I can give you everything tonight (Tonight)

(Tonight, tonight, tonight, tonight)
