

# Kid Cudi, Whenever

Focus baby don't look at me  
See right through me  
Understand my heartbeat  
Murmurs to mock your rhythm  
Yeah, my nuts, the other girls want em,  
But they can't have  
At least for the moment  
I'm with you there could be people around  
I'm just focused on you  
You can sip chardonnay and imma have myself a brew  
I'm a country ass nigga baby  
You know how I roll  
Your face, never seen something more perfect  
You dance in my mind like justice  
I know you listening back like damn bro  
Laid back so gentle like the violins  
Lay on the beat and we don't have to be discreet  
Can I have a taste? absolutely!  
Your my sweet tangerine lets make a smoothie  
But baby all jokes aside  
My heart beats faster when you open your thighs  
I'm just ready slide ride and glide

Whenever baby whenever baby whenever baby
