

# Kiesza, Giant In My Heart

I'm trying to pretend it isn't true  
But even when I want its like I can't get over you  
Over you  
Over you, over you  
And everytime I try and tell you why  
I turn my face and tears run down my eyes  
It's over now, over now  
Baby it's over now, over now

So give me all the magic  
Just give me all the magic that we made  
It's like a giant in my heart babe  
This love is greater then my heartbreak  
So give me back the moments  
Just give me back the moments that we made  
It's like a giant in my heart babe  
This love is greater then my heartbreak

Wow doo doo doo doo dow

What's the point of going through  
All the pain I'm in with you  
What am I supposed to do  
In my heart there's only you  
Baby I can't lose you

I'm lying to myself that I'm ok  
But when I see your photograph  
I'm still not over you, over you  
Over you, over you  
And everytime I will your love away  
It comes back in a rush reminding me  
It's over now, over now  
Over now, over now

So give me all the magic  
Just give me all the magic that we made  
It's like a giant in my heart babe  
This love is greater then my heartbreak  
So give me back the moments  
Just give me back the moments that we made  
It's like a giant in my heart babe  
This love is greater then my heartbreak

Wow doo doo doo doo dow

What's the point of going through  
All the pain I'm in with you  
What am I supposed to do  
In my heart there's only you  
Baby I can't lose you

I tried my best and I'll confess I'll love with less  
I gave the most and took the loss from what I chose  
I fought for you you lead me to a painful truth  
And now I wait without a heart to save

My love, my love, my love, my love  
My love, my love, my love, my love  
There's no escaping you

Wow doo doo doo doo dow

What's the point of going through

All the pain I'm in with you  
What am I supposed to do  
In my heart there's only you  
Baby I can't lose you
